

# Shawn's Favorite Things

## Reading

Sometimes it will be technical reading. other times it may be a good science fiction book.

## Dogs

Dogs rule. They have varied personalities. A good frisbee or tennis ball toss with the right dog is fun.

## **Land Conservation**

## **Wetland**

## **Oak Savana**

Last semester, I volunteered a number of times to work with a team of people removing invasive species that did not belong. Vines had to be removed from trees. Most of the unwanted foliage has to be burned.

## **Programming**

## **McHenry County College**

I have been learning at [McHenry County College](#) for a year.

This class will help to better understand a different aspect of programming. It will help with swift programming also.
